

Take your business to new heights.

TaskEasy needs experienced and licensed yard care vendors to service vacant and occupied properties.

What we are looking for

Detail Oriented

We need someone who can effectively build a route, take photos, maximize potential by limiting drive time and manage a crew.

Experience

We need industry professionals with large service areas who can complete 50 or more jobs a week.

Passion

We are looking for someone who is passionate about yard care and understands the importance it plays in our customers' lives.

What we do

TaskEasy makes it easy for people to order yard care services online, whether they are homeowners, property managers, REO clients, property aggregators, or commercial property owners. Our easy-to-use dashboard and mobile application allow our vendors to accept and complete jobs, build an efficient route, and effectively grow their book of business.

We keep crews busy

Dedicated Account Support

A dedicated account advocate will handle all of the communications with your customers, including scheduling in accordance to your daily route, finding new accounts, offering more work, and providing any back office support you may need. We'll keep regular communication with you to ensure your account is being properly maintained and that your business needs are met.

Fair Pricing

We price all yards by total square footage on a market-by-market basis to establish fair market pricing. On average, our properties range from \$30-60 a service and are either a weekly or bi-weekly frequency. Our best contractors perform 300-400 jobs per week resulting in over \$30,000 a month in net revenue without ever having to speak to a customer, market to new customers, or close a deal.

Quick Payments

We lead the industry with quick and easy payments that are directly deposited into your bank account weekly. TaskEasy has a 100% payment guarantee as long as the individual job is rendered complete and the correct scope is met. Our online dashboard also provides you an itemized finance report, so you can streamline your accounting and easily track payments.

"The consumer-contractor platform that TaskEasy created is unparalleled. My partnership with TaskEasy has allowed me to grow my business and expand and consolidate the areas I work in. I have more revenue and more ability to market myself and strengthen my business."

- Kutting Edge Lawn Service, LLC
